Cabin Inspections 2020

Inspections and Findings

Cabin Inspections

- In 2020, 6 Cabin Inspections were conducted out of the 11 planned. Mainly this was a result of the travel restrictions that were imposed.
- 13 Findings and 6 Observations were raised;
 - 1 Level 1 Finding
 - 12 Level 2 Findings
 - 6 Observations

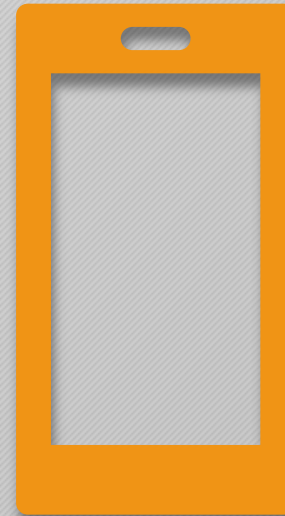

Findings & Observations

Common Level 2 Findings

- Announcements not in accordance with CAT.OP.MPA.170;
- Location of equipment not in accordance with EEL chart;
- Sign illumination (non-smoking sign and lavatory return to seat);
- Serviceability of trolley carts incl. CCOM procedures; and
- Passenger Briefing at Over-wing exits.

AMC1 CAT.OP.MPA.170 Passenger briefing

- Passengers should be reminded of:
 - the use and stowage of portable electronic devices.
 - i. Before take-off;
 - ii. Before landing; and
 - iii. After landing.

Trolley Carts

What do we check ?

- i. Condition;
- ii. Brakes;
- iii. Procedure in place to report the trolley cart;
 - Before departure; and
 - Inflight.

Findings & Observations

Level 1 Finding

- Tray Table Latch - Emergency Exit Row (no one way lock)

Observations

- Cabin Crew Equipment
- Incomplete records

Cabin Inspection

Checklist

Cabin Checklist

- Developed a new revision of the Cabin Checklist.
