

Expression of Interest for the Acquisition of Old Street Lighting

Transport Malta has approximately one thousand three hundred (1,300) units of Old Street Lamps of the SON-T type which have been replaced as per EU Regulations. These lamps are held in store at a warehouse in Transport Malta's Pembroke Compound and this warehouse needs to be vacated. The lamps have to be disposed of as per WEEE Regulations.

A SON-T (sodium-vapor) lamp is a gas-discharge lamp that uses sodium in an excited state to produce light. Waste containing substances such as sodium, mercury or lead (in solder), as found in discharge lamps and their associated control gear in luminaires, is classified as 'hazardous waste'.

Interested parties interested in viewing these items are requested to send their request through the below email and they will be informed of any viewing sessions organized by the Authority.

Interested parties are to express their interest by sending an email, including their personal details and the applicable sum they are willing to pay on quotationsgeneral@transport.gov.mt by not later than **Friday 5th February 2021 at 10:00am.**
