20 December 2017

Diving Survey Investigations at Different Locations

The Ports and Yachting Directorate, Transport Malta, notifies mariners that diving survey investigations will be carried out at different locations as noted below.

These diving survey investigations will be carried out in the following locations marked between lines "A" and "B" as per attached charts:

- 1) Sliema ferries
- 2) Marsamxett
- 3) Bormla
- 4) Gzira
- 5) Ta' Xbiex
- 6) Spinola
- 7) Bugibba.

Weather permitting the work is expected to commence on the 23rd December 2017 and completed by the end of January 2018.

These investigations will be carried out along the indicated quays by divers who will display the International Code of Signals Flag 'A' during operations.

Mariners are instructed to give a wide berth and proceed at slow speeds and to comply with any instructions given by Valletta Port Control on channel 12.

Charts affected: BA 177, 211B

The map shows a topographic representation of the BORMILA area. A proposed road alignment is indicated by a red line segment connecting point A (marked with a pink circle) and point B (marked with a pink circle). The alignment starts at point B, which is located near a building with a cross-hatched roof, and extends towards point A, which is located near a large, irregularly shaped building. The map includes various contour lines with elevations such as 1.7, 8.9, 18.8, 27.8, 1.1, 0.6, 14.2, 14.9, and 19.0. There are also several buildings and structures shown, some with hatched roofs. The title 'BORMILA' is written vertically on the right side of the map.
