Montreal, Quebec
CANADA H3C 5H7

Dear Mrs Rooney,

The Republic of Malta wishes the following temporary variation to be published on the ICAO website at www.icao.int/safety/DangerousGoods for incorporation in the 2020 Edition of the Technical Instructions:

M 1 Maltese aircraft operators and all other operators to, from and over Malta wishing to carry containers of UN 1219 for use by on-board crew members are permitted to do so temporarily for the period of the ongoing COVID-19 pandemic, provided containers of maximum 500 ml for single quantities, and for locations where the containers are safely installed and used with dispenser devices, kept away from heat, oxidizing and other flammable products and sources of ignition (this applies also to empty bottles!). Crew members concerned shall be informed and the applicable procedures for the safe installation, storage and handling have to be described in a revision or temporary revision to the Operations Manual or equivalent, where applying.

The Transport Malta Civil Aviation Directorate asks you to kindly review and publish the requested exemption from the provisions of the Technical Instructions, and send a comment on concerns, as applicable.

Variation
