**Mooring Services by the Service Provider
Two (2) Hour Notice**

The Authority for Transport in Malta wishes to direct the attention of all to the applicable procedure when requesting mooring services provided by the Malta Boatmen and Mooring Services Co-op Ltd (the "Service Provider").

In terms of the Mooring Services Agreement in place, in order to ensure that the Service Provider arrives in time to commence the requested operations, the Authority is obliged to provide such Service Provider with a minimum of two (2) hours notice for all mooring services.

In this respect, the Authority is hereby notifying all that in respect of services required between 0600 and 2000, a request must be made to the Authority well in advance of the two (2) hour mark. For those services required after 2000, the Authority will be giving the Service Provider a minimum of one (1) hour notice and therefore the request must reach the Authority well in advance accordingly.

All are therefore hereby being directed to ensure compliance with the above and that all orders are placed in good time so that the above minimum requirements are complied with and that no disruption to operations or undue delay on ships are caused.

This Port Notice shall come into force on the 1st April 2018 and shall remain in force until further notice.

Capt. Fritz Farrugia
Deputy Harbour Master
Ports and Yachting Directorate

26 March 2018
