In view of this, all mariners and vessel owners are to ensure that they have the correct navigational equipment on board, including paper charts or alternative digital means of navigation and/or a dedicated ENC or equivalent, which may also include the use of navigational applications on their smartphones or tablets, that would allow them to ascertain their exact location.

Works on the organization of moorings in Mellieħa Bay, with respect to areas A, B, C & D have been completed. Additional work as per Local Notice to Mariners 085 of 2025, will continue until a further notice is issued.

Mooring holders will be contacted in the coming days in the interest of clarifying related procedures and on this note we highlight the importance to mooring holders to ensure coordinates and procedures provided by the Yachting & Mooring department are complied with.

To always ensure safety, the use of fishing gear and related ancillary is not allowed in these areas.

In view of the above, mariners navigating in the area are to navigate with caution and at safe speed (no wake) and in line with speed limits established in the area. They are to comply with the instructions as communicated by the Valletta Port Control (VTS) on VHF Channel 12 or by the Authority's officials or other Enforcement Agencies.
